ACCELEDONTICS is exclusively available  
at THE SUPER DENTISTS

## Goodbye old Orthodontics; Hello new Acceledontics!

Traditional braces usually take years to fix teeth, yet with new Acceledontics, your dream smile is only months away. With traditional braces there are more orthodontist visits (time away from work or school), more discomfort, more risk of permanent teeth discoloration and a greater chance for tooth decay leading to additional dental costs later. Plus, old braces are not aesthetically pleasing.

## Better, faster & only available at The Super Dentists.

After treating more than 20,000 patients at The Super Dentists, and being frustrated with the downsides of braces, our orthodontists have perfected a real breakthrough and revolutionary system that does in months what used to take years. And, we've eliminated many of the negatives for a comfortable, healthy and aesthetic experience.

***"I never thought I could have such an incredible smile in such a short time. The best decision I ever made. I love my new smile!"***  
— Erica J., 34 years old,  
***only 6 months in Acceledontics***

Acceledontics is the most complete dental package for the perfect smile — and it's only available at The Super Dentists because we invented it. Our proprietary AADvance brand braces, auxiliary devices and whitening system are featured in our exclusive five-step program.

### Exclusive 5-Step Program

1. Health & Medication Assessment (You Must Qualify)
2. AADvance Braces
3. AADvance Auxiliary Devices
4. Accelerator(s)
5. AADvance Whitening

Acceledontics is designed to give you a healthy, straighter smile in as little as **4 months**, and a beautiful, whiter smile in as little as **4 minutes**.

## You deserve the smile you've always wanted.

What are you waiting for? More adults and teens are getting braces than ever before. In the last decade, orthodontic treatment is up 40 percent among adults alone.

Whether you're an adult and you want a picture-perfect smile for your wedding, class reunion, new career, family portrait or because you're suddenly single, or you're a teen and you want a beautiful smile for your quinceañera, high-school photos or graduation, there's no time like now to have straighter, whiter teeth.

Acceledontics can give you the beautiful and healthy smile by correcting your bite and straightening crowded or misaligned teeth.

If you had braces as a kid and your teeth have shifted, or you've finally reached a time in your life that you're ready for a stunning smile, it may be time to experience Acceledontics. In just a few months, you can have the smile you always wanted.

Enhance your oral health and self-esteem with today's most advanced orthodontic treatment with Acceledontics.
